The cost of that data transfer is covered by your internet service or the data plan on your phone. Keep your files private, or send your download links only to friends or family. There are no restrictions on the number of times a file can be downloaded. filehosting provides an easy possibility for you to send large files to your friends. Also, many team chat apps have limits to the size of files that can be transferred within their apps. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Our service is completely free for everyone. Just upload the file you want to share with your friends and we send you a download link to your file. So try our free and simple filehosting service now. Simply upload your file and share the link. You don't need any special software installed to be able to download your files. Alternatively you can chooseto share your download links on blogs, forums and social networking sites. Any file in any format can be uploaded and downloaded for free. If only we could,we surely would! On the other hand, using file can actually save you money.
