Maybe even better than free.

Files can be downloaded from any computer from our high speed servers. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. The cost of that datatransfer is covered by your internet service or the data plan on your phone. Using file, you can circumvent those limits without paying to upgrade your teamchat service. Any file in any format can be uploaded and downloaded for free. File is free to use with no gotchas and no hidden fees. You decide who you wantto share your files with. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You can upload any type of file(movies, music, documents, images, zip files and more). So try our free and simple filehosting service now. We have no file size limit. You can give thisdownload link to your friends by mail or instant messenger. If only we could, we surely would! On the other hand, using file can actually save you money.filehosting provides an easy possibility for you to send large files to your friends. Unfortunately, we can't make that part free. No account or credit card isrequired to get started. Why pay storage fees for a file that you just wanted to share with your friends and we send you a download link to your file. There areno restrictions on the number of times a file can be downloaded. Alternatively you can choose to share your download links on blogs, forums and socialnetworking sites. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. You don't need any special software installed to be able to download your file and share the link. This is easy, fast and reliable filehosting! You don't need any kind ofpremium-accounts. It is also allowed to link to the download page from websites and communities.
