A solid black anodized stainless steel case 42mm diameter by 11mm thick and bracelet which is polished. Stunningly designed black mother of pearl dial with luminous silver tone hands and hour markers. 3 sub dials with day date and 24 hour hand features. Beautiful 34 genuine diamonds accents the bezel and hour markers. Bulova Marine Star logo on face. Precision made Swiss quartz movement. Crystal clear scratch resistant mineral crystal. Hidden deployment type clasp. This watch is water resistant up to 100m. Bulova was trained as a jeweler, and his expertise carried over into his watchmaking career, which began around 1911 with boudoir clocks and pocket watches, and soon evolved to include what was then one of the latest and most

fashionable technological innovations the wristwatch. Bulova introduced its first line of wristwatches in 1919.<http://www.branchennachweis.eu/userfiles/deh-p7950ub-manual-instalacion.xml>

Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Please try again later. Morgan 5.0 out of 5 stars It is amazing. The smaller diamonds add shine and class without being gaudy and overbearing. The watch is a nice weight that makes it feel sturdy and solid. Comes with tons of extra links so he needed to get it resized, but better to come big than too small. It also comes with instructions on how to set the date and time which were very helpful. My only complaint is the clasp. It was very hard to work and there was nothing in the instructions on how. We actually had to have the jeweler explain it to us. Overall a great watch! It is a beautiful watch. I got it on time and came very well packaged and cared for. The watch just out does itself in person. The diamonds just sparkle and the pearl inside is beautiful in color. I loved it at first sight. My husband was so excited when he opened it, he even cried!!! and him crying was a shocker cuz hes one of those Mexican, Ima macho man who NEVER shows emotion type of guys. His friends and family compliment the watch all the time, and he wears it soooo proud.<http://airportdirectcars.com/userfiles/deh-p7200-manual.xml>

Best part is he thinks I spent double the price for it lol he thinks I bought it at a jewelry store. The chronograph function is fairly easy. You'll understand if you haven't set this type before once you play with it for 30 seconds. Seems to be a great evening watch. The shine of this stainless steel is more bold than the diamond!!! kinda takes away the wow factor of having real diamonds. I like that it isn't BAM in your face, it is subtle and elegant. When I got it I had to remove two links so that it would fit nicely on my wrist. I am a large man so I have big wrists, I was very happy when I had to remove links instead of add them. For such an expensive watch you'd think it would have better glass. It's unwearable like this. When you hit that perfect light it really shines. I love that it's flashy and fancy but has a lot of class to it. It's got a good weight, and the face isn't enormous. It's perfectly balanced and I love the day and date on it. The diamonds are very small, but perfect because they are in the right proportion. It's a very balanced look. The other features of the watch are just as beautiful. Be aware of that, know a respectable jeweler in your area just in case of this. The price is amazing too. I saw this watch for more than twice the price on other sites. The company is a well-respected watch company too, which means not only is it a fancy accessory but it's also a reliable well-crafted time piece. Very happy. Paid total 180 Bones. The Best 180 Buck watch. I would pay up to 250 if I had to. And I'm the type to never spend that much on a watch for my self, but after I got it I am verrrrry HAPPY!!!! This is the perfect watch for me. Very classy with the perfect amount of flashy where you can wear it with a suit or even with shorts and a shirt. The glass or band has not scratched I am a very active man. All in all, a gorgeous watch. Within 2 business days. Opened it up, and, it had a big chip on the face plate. The Bulova 98E003 Marine Star Diamond Accented Watch is more of an exceptional icon within the market technology and not just a mere wristwatch. Bulova timepieces were adapted for use by NASA computers; a Bulova timer has ever been placed on the moon to regulate transmission of data. Besides, the brand have served as official timepieces for U.S.

Olympic teams in addition to keeping official time aboard Air Force One. Moreover, it's artfully crafted with a bezel, stainlesssteel case, and band. Any customer would enjoy the dial decoration of 34 beautiful diamonds and the watch's bezel. Its superior Japanesequartz movement is superb for maintaining accurate timeframes. The 24hour subdial, day and date provide security while the mineral crystal protects dial. Moreover, it can be a nice gift to someone you value much. The over 30 diamonds for the 96E102 version do not stand out much when standing more than 4 feet away, would be clearly seen in the light. Most silver dials do not stand out due to the lack of contrast. However, all the diamonds for the black on black Bulova Men's 98E003 version can be seen from across the room. This is because of the contrast created between the diamonds and the black dial.
